Backing:	Resin Backing
Total Weight:	+/-800gsm
Pile Height:	7mm
Width:	2m
Warranty:	2 years

For accurate colour references, please refer to a sample swatch.

## FAQ

### How do I maintain my artificial grass?

Artificial grass is very easy to maintain. Use a brush to remove debris such as leaves, twigs, and seeds. Brushing will also help to keep that natural look without the hassle of mowing, weeding and watering.

### Will my artificial grass fade in the sun?

Our Artificial Grass Collection is fully UV stabilised and carry a minimum guarantee of 2 & 8 years against fading from sun exposure. This means that your grass will stay green all year round.

### Will weeds grow through my artificial grass ?

To protect against weeds, we recommend that you apply weed killer to the area prior to fitting as this should provide you with the perfect defence against weeds.

### Is artificial grass child friendly ?

Our Artificial Grass Collection is safe for children to play on just as if it were your normal garden area. We recommend the use of a shock pad/underlay to accommodate for any falls.

### Is artificial grass suitable for pets ?

Artificial grass is ideal for dogs and cats to play on. All of our products can be easily cleaned using a garden hose, warm water and mild detergent, or even with a good rainfall. Our artificial grass is very durable and manufactured to stand the test of time.
