Total Weight	+/- 3600gsm
Total Thickness	+/- 5mm
Location Grade	General / Medium Commercial
Width	50cm x 50cm
Guarantees	5 year maintenance linked
Warranties	10 year limited wear

Bill of Quantities

Blooms (+ colour name) General / Medium Commercial tufted tiles by Floornet, made from 100% Solution Dyed Polyester and available in 50cm x 50cm with EcoAce-Bac , with a total thickness of +/- 5mm and a total weight of +/-3600gsm, to be laid in accordance with the code of practice for the installation of textile floor coverings (SANS 10186).

- Care must be taken when ordering or installing carpets. Like all textile products, colours are subject to shade variation between batches.
- Specifications are based on averages from normal manufacturing tolerances. Such variations do not affect product performance.
- Adequate precautions must be taken to protect the carpet against sunlight to prevent premature fading or damage.
- Due to dye lot variations, actual material may vary from samples. Certain light sources shining across the surface may emphasise the effect of shadow lines. These are not manufacturing defect and will not detract from the performance of the carpet.
- Regular vacuum cleaning is essential. Spills and surface stains can be removed by sponging with a damp cloth, or for more resistant stains, with a mild detergent solution.
- A well maintained carpet can reduce airborne allergens, contributing to healthier indoor air quality. Unlike other surfaces, carpet traps dust particles, which keeps them out of the air, and allows them to be easily vacuumed up.
- Use carpet protector mats for chairs with castor wheels.
- Pile pressure marks, shading and soiling are not manufacturing defects.
- For quality-related issues, installation instructions, care and maintenance guidelines, warranties, and our claims policy, please visit our website or request a copy, as no claims will be considered for floor or carpet damage caused by improper application or installation.

IMPORTANT INFORMATION

EcoAce-Bac® Carpet Tile Backing

EcoAce-Bac® is a uniquely developed carpet tile backing that uses a special polyolefin layer to securely bond a premium cushion backing made from 100% recycled plastic bottles (PET) to the carpet, delivering superior sustainability and performance.

Unique Features

- Low-VOC and odour-free for cleaner indoor air
- Cushioned comfort reduces foot fatigue throughout the day
- Cushion backing made from 100% recycled PET bottles to help create quieter spaces
- 20–25% lighter than traditional carpet tile backings leading to reduced transport and energy cost that can streamline construction
